SOMMELIER SELECTION

CORAVIN

EXPLORE BY THE POUR WITHOUT PULLING THE CORK

Only a very small selected group of restaurants in the world offer Coravin™ Wine Access Technology, and Fazenda is proud to be part of this exclusive group.

The Coravin™ System allows you to pour and enjoy fine wine without disturbing the natural ageing process by keeping the cork in the bottle, where it's been since it was first sealed at the winery.

Wine flows out but oxygen never gets in, eliminating the problem of oxidation. This process allows the wine remaining in the bottle to continue to evolve naturally.

At Fazenda, you can enjoy our finest wines without having to purchase the whole bottle. Explore the world of premium wines at accessible prices. Look for the Coravin logo on our menu next to carefully selected wines from the range.

FINE & FAVOURITES

A WORD FROM OUR WINE LIST CURATOR

CHRIS MILNER

We regularly buy small quantities of special wines and rare vintages from around the world we have enjoyed and which we would love to share with you. Please ask our team for our Fine & Favourites menu to see what is available.

Our lists are kept as up to date as possible but please note availability of these wines is limited.

South America is the most exciting wine region in the world, but we have opened our arms to all. I hope you enjoy trying these wines as much as I did while putting these lists together with our team.
